Dedicated, hard-working individual who enjoys solving problems and contributing to team/company goals. I decided to become a software developer because after being a client-side user, I want to be able to take that experience, make improvements, and provide excellent products/service.

## Technical Experience

- HTML
- CSS
- JavaScript
- BootStrap
- Paired Programming
- Test-Driven Development
- Java SE
- MySQL
- Spring Boot Framework
- jQuery
- Object-Oriented Programming
- Java EE (Servlets, JSP)

## Development Projects

### Coffee Project

- This project uses JavaScript to dynamically update the HTML of a webpage. Uses the functionality of sorting, adding, and removing elements from the page.

### Weather Map

- Uses HTML, CSS, jQuery, AJAX, and the OpenWeatherMap API to dynamically update the current weather conditions based on the users input for location.

### Movie App

- Using bootstrap for design and a json-server for updating a list of movies.

## Professional Experience

### United Parcel Service - San Antonio, TX

Aug. 2019 - Jul. 2020

#### On Road Supervisor

- Successfully trained drivers on industry leading safe driving methods in order to achieve world class results in safety.
- Provided annual safety training for existing drivers and new driver training.
- HAZMAT certified - responsible for handling leaking or damaged HAZMAT packages in the facility or on the road.

### United Parcel Service - Virginia Beach, VA

Jul. 2017 - Aug. 2019

#### Dispatcher

- Implemented plans for UPS to deliver packages on Saturdays to compete with other delivery companies
- Used software to develop plans for all routes regarding delivery stops, package counts, and pickup stops in order to increase efficiency and reduce cost.

### United Parcel Service - Montgomery, AL

Nov. 2012 - Jul. 2017

#### Dispatcher

- Streamlined the process for operations involving loading delivery trucks with respect to package counts as well as employee efficiency.

## Education

### Codeup - Certificate of Completion - March 2021

A fully-immersive, project-based, and intensive 22-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.

### Troy University

Associate of Science in General Education

- Attended from Sept. 2014 to May 2016
